How it works

1. Tell us about you

Answer 4 quick questions about your goal, timeline, and risk comfort.

2. Get your match

We recommend one of nine systematically managed funds using transparent rules.

3. Explore and allocate

Compare funds, read fact sheets, and build your own blended portfolio.

Who it's for: Investors who want a transparent, data-driven approach to multi-asset investing — no financial jargon, no hidden fees.

This tool provides educational guidance, not financial advice. All figures are out-of-sample and read from precomputed results. No backtests or sentiment models run inside this app.
